Subject: Fw: Dimock Residential GW Site Preliminary Results

Den, please see the email below. We detected As in one of the residents.

Would have forwarded to you sooner but I am having Lotus and computer issues.

Subject: Dimock Residential GW Site Preliminary Results

Preliminary results for the Dimock Residential GW Site are included in the attachment. Included are results on the priority constituents from all labs, where available. Level of certainty is provided when results are above screening levels.

One result was determined to be at the screening level for As (HW02).

Some results are still pending as data have not been received from laboratory.

Please contact me at 410/305-2732, or Robin Costas 410/305-2659, if you experience delivery problems with this report. A copy of this e-mail will be retained in the case file.
